If there are discharges to other MS4s or a WUS then yeah, they do have to report on them

Thanks!!

As a followup , UMass Amherst now says some of their satellite locations are in other towns' urbanized areas (e.g., Georgetown) . . .

So . . . do they have to report the satellite locations that are outside of the Amherst urbanized area?

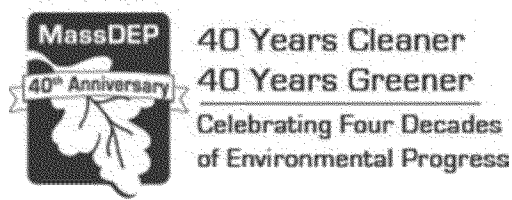

Fred

Also, just listened to your VM. You are right about Amherst, if their other facilities are not in urbanized area they don't have to worry about them for permit compliance

Newt –

I was thinking . . . would you mind taking the lead for presenting Wednesday?

If not, that's OK . . . but I could use that presentation/time to get better prepared.

Also, is there any way you can send me the slides? Without them, I'll be DOA ☺

Thanks

Fred
